## MATINEE RACES AT FAIR GROUNDS

All Sorts of Sport at The Meet  
This Week

Much Interest Is Displayed in Runners, of Which Four Will Be Entered.

HORSES ARE EVENLY MATCHED

With every detail satisfactorily arranged the semi-monthly Matinee club race will be held tomorrow afternoon at the fair grounds, and indications point to the biggest crowd since the club began giving races. There will likely be many visitors here from surrounding cities. Rivalry between owners of the four runners entered is great.

With the one mile heat race and the running event, the program offers everything possible in the racing line. There will be half mile and mile races and a half mile running dash.

The best horses in the club stables are entered in them, and in several events the starters are within a few seconds of each other's marks.

There will be no more interference from crowds on the race course. The club has fenced off the grand stand and no one will be permitted to stand on the track. Automobile drivers will have to leave their machines far from the track as they frighten the starters and make it impossible to give every driver a fair show.

In the races tomorrow will be seen several horses which will start in the Mayfield annual race meet July 4, 5 and 6, and their work will be watched with interest.

There is talk among members of the club of taking several club horses to Marion, Ill., for the annual race meet.

Another Feature Race.  
A match race between the fast trotters of Messrs. J. L. Friedman and O. L. Gregory has been arranged as another special event in the races, and a great deal of interest is taken in the match.

Indications point to the lowering of the track record for one mile racing.

The four jumpers featured tomorrow will be shipped to Mayfield for July 4, 5 and 6. Special interest is taken in the jumping event, it being freely predicted that the jumpers will go the half mile in fifty seconds. They show up well in the work outs.

## ROBBER ASSAULTS HIM AND LEAVES HIM FOR DEAD

Unconscious and with the mark of a heavy blow under his right jaw, Charlie Oster, colored, was found in a box car this morning by employees of the Illinois Central railroad at Dyersburg, Tenn. Oster was brought to the Illinois Central hospital on the noon train and at the station was unable to speak, but on arrival at the hospital and after medical attention was able to give an account of his injuries. An unknown negro struck him last night with an iron bar and then as he lay unconscious robbed him of \$60 he had in his pocket. Oster worked for the railroad at Dyersburg, being member of an extra gang. This afternoon Oster fully regained consciousness and the doctors think his injuries are not serious.

## INDEPENDENTS TO MEET RUBYS AT WALLACE PARK

John Hollan's Independent baseball team will meet the Cairo Rubys at Wallace park Sunday. Hollan will work several new players, who are said to be exceptionally fast, and will give the Rubys a hard run. Hollan's team defeated the Pabets, Cairo's strongest team, and it is considered easy picking to defeat the

Above 90 at Noon.  
It's surely going to rain, but when? The weather man missed it yesterday and the sun finally overcame the clouds this morning, but a sultry atmosphere that bodes of bad weather again, made today the hottest of the year in Paducah. The temperature this morning at its lowest was 76 and it had gone above 90 at noon.

## RIOTS IN FRANCE COST MANY LIVES

Paris, June 20.—Official advices received by Premier Clemenceau today give the number of casualties in yesterday's rioting at Narbonne, center of the disaffected wine growing district, as five killed and 200 injured, some of whom will die. The government today has the upper hand.

## WEATHER FORECAST.

## RAIN.

Showers tonight and Friday. The highest temperature yesterday, 91; lowest today, 70.

## RECALL FERRARA.

Havana, June 20.—It is believed here today that Governor Magoon will recall Senator Ferrara, secretary of the Cuban delegation to The Hague conference. The action is the result of an objection to the delegate being an Italian.

## SAY HE IS BIASED.

Concord, N. H., June 20.—Announcement of the appointment of a master to inquire into the mental condition of Mrs. Eddy, by Judge Chamberlain, has aroused many Christian Scientists here. They say the appointment of Jacob Summers as master greatly favors the plaintiffs as he is said to be biased against the church.

## STRIKE BREAK.

Havana, June 20.—There is a break in the strike situation today. Officials of the tobacco trust predict they will win in two weeks.

## BOYCOTT TILMAN.

Appleton, Wis., June 20.—Appleton people have boycotted Senator Tillman and as the result the Fox River Chautauque association has been obliged to cancel his engagement for July 10. Many people agreed not to buy tickets if Tillman remained on the program. Rather than sacrifice sufficient money to bankrupt the Chautauque the management took him off.

## WRECK IN TUNNEL.

Tunnelton, Ind., June 20.—A Baltimore & Ohio east-bound passenger train was wrecked in a tunnel near here this morning. At the curve in the tunnel tender of the passenger and mail cars left the track and piled up. About a dozen passengers were seriously bruised. The engine ran to the next station, the engineer thinking he had broken loose from the train, feared a collision.

## BOAT SINKS.

London, June 20.—As the result of a broken shaft, torpedo boat destroyer, 99, sank off Torquay on the coast of Devon today. The crew was taken off by the cruiser, Dyrangan, which was in the vicinity.

## JUMPED TO DEATH.

Chicago, June 20.—George Graves committed suicide by diving from the structure of the Metropolitan & Elevated railway. He walked along the track a short distance and then shouted: "Here goes for organized labor." His head struck the pavement and his skull was crushed.

## LOVE?

Belleville, Ill., June 20.—Barred from marriage by law and objections of the girl's family, George Bullock, married, and Clara Miller ended their lives last night on the shore of Triangle lake, which for months has been their trysting place. Clashed in each other's arms their bodies were found with bullet holes through the forehead.

## CLEVELAND BETTER.

Princeton, June 20.—Grover Cleveland, who has been seriously ill, is much improved today. The crisis was passed last night and physicians say he is now entirely out of danger.

## GRAIN MARKET.

Cincinnati, June 20.—Wheat, 94; corn, 55½; oats, 47.

## PERSIAN REVOLT.

Paris, June 20.—A Tehran dispatch says the Persian revolt is crushed. The shah's brother has taken refuge in the British consulate.

The charter for the Carpenters union at Mayfield arrived today. As soon as the three other charters arrive the Central Labor union will be organized.

## Jefferson Boulevard Is To Be Built After All

Plan Proposed Meets With Approval of Traction Company and Property Owners and Facilitates Work

THE PARK COMMISSION EXCUSED

Jefferson boulevard plans were revived today and it is probable now that the improvement from Ninth street to Twenty-fifth street will be pushed even more rapidly than anticipated when the general council was originally petitioned for a resolution enabling the Paducah Traction company, the property owners and the park commissioners to proceed with their plans. The new scheme eliminates the park commissioners from the enterprise this year, thus avoiding delays on account of lack of funds. That is what caused property owners to withdraw their petition from the general council. Since his return from the west Dr.

King Brooks, prime mover in the improvement idea, has been at work bringing the property owners together again, and today Manager Bleeker, of the traction company, acceded to a plan suggested that it is believed will be acceptable to the property owners and the city.

The Paducah Traction company will not double track at once, but a 24-foot grass plot will be constructed down the middle of the boulevard with a 20 foot driveway on either side, flanked with lawn strips and the sidewalks.

Originally the property owners were to contribute 60 cents the lineal foot toward the curbing and gutters for the middle strip, but City Engineer Washington has determined that gutters are not necessary. It was also planned that the park commission should fill in the strip, and the lack of available funds made this preliminary work of indefinite beginning. Now it is proposed that the money contributed by the property owners go toward filling in the strip, while the traction company makes up the balance and pays for the curbing.

The matter will be taken before the general council without delay.

## Capt. E. Farley, of Paducah

Capt. Edwin Farley, nominated yesterday by the Republican state convention for treasurer of Kentucky, has been one of the strong men of the party in western Kentucky since 1869, and he stands high in the councils of the party in the state. He is a veteran of the Civil war, and

has many times been honored by his neighbors and by the government. He was collector of internal revenue under Arthur and postmaster under Garfield. He has served in the general council and on the school board. His nomination for state treasurer was unanimous.

## OFFICERS-ELECT OF ENCAMPMENT

Chosen at Regular Meeting of Union Encampment, No. 70, Last Night—Report of Building Committee

WILL TAKE WEEK TO DECIDE.

Officers for the coming year were elected last night at the meeting of the Union encampment, No. 70, I. O. O. F., at the hall of the Knights of Pythias, Fifth street and Broadway. The officers are: James Householder, chief patriarch; Sterling Price, senior warden; J. O. Keebler, junior warden; A. R. Davis, high priest; C. G. Kelly, scribe; James C. Martin, treasurer. Minor officers or those appointed will be selected at the regular meeting held July 3.

At the meeting a report of the committee on remodeling the "Three Links" building was received, which was nothing more than that this week and perhaps next week too will be spent in deciding upon how to let the contract.

## CAB DRIVER CHARGED WITH TRESPASSING

This afternoon Justice C. W. Emery will try the case against William Marable, a colored cab driver, for trespassing. The Palmer Transfer company secured several years ago a concession from the Illinois Central of a part of the station platform space for its carriages. It contracted to give a perfect service to the patrons of the road. Often hack drivers would drive into the inclosed space, and some little trouble was at first experienced. Recently the inclosure was permitted to be open, the chains dropping down, and yesterday repairs were made. Marable is alleged to have driven in after being warned away.

## Bundesman Infant.

The eleven-months-old son of Mrs. A. Bundesman, of 535 South Seventh street, died this morning at 1 o'clock of a complication of diseases. The father is the well known sewer inspector. The funeral will be held at the residence tomorrow morning at 9 o'clock. The burial will be in Oak Grove cemetery.

No Telegraphers' Strike.  
New York, June 20.—Telegraph operators will not strike. Following a conference today between Commissioner of Labor Neil and acting President Kosenkamp of the Commercial Telegraphers' union, announcements were made by the latter of an agreement reached.

## PREFERS POISON TO GOING TO JAIL

Young Woman Gets Nauseating Dose of Rough on Rats

Patrolman Promptly Knocks the Box From Her Hand and Saves Her Life.

SHE IS TOO SICK TO APPEAR.

By the timely action of Patrolman Ernest Hill, Birdie Allen of 630 Flournoy street, was prevented from killing herself with rough on rats last night. Today she is ill, but considered out of danger. Hill knocked the poison out of her hand when he realized she was attempting her life.

Birdie Allen was arrested between 7 and 8 o'clock last night by Patrolmen Ernest Hill and William Rogers at her residence. She was in company with Ida Morris, May Lane, and two men. The charge was running a disorderly house, and when apprised of the warrant, she became frantic.

"I'll kill myself rather than be arrested," she declared, and rushed for a small shelf in the corner of the room. Hill thought she was preparing to secure her hat to go to the police station, never suspecting she really meant self-destruction.

Seizing a small paste-board box she tilted it to her lips. Hill rushed to her side and knocked it from her hands. She attempted to grab it up again but the policeman prevented her. Picking up the box the policeman discovered that it contained rough on rats.

Refusing a physician's service Birdie Allen rode to the city hall in the patrol wagon, and was becoming rapidly ill all the time. She had succeeded in swallowing but little of the poison, and Police Judge D. A. Cross recognized her to appear in court this morning. She was taken home and advised to secure a physician. Vomiting seized her, and in this way the greater portion of the mixture swallowed was thrown from the stomach. This morning she was unable to appear at court. Physicians who attended her after she was forced to go to bed, believe she will be able to stand trial by Monday.

## IN SINKING BOAT BUT HELPLESS WITH DRINK

Helplessly drunk, and lying in a houseboat, which was slowly sinking, Mrs. Eliza Sweeney, who has appeared in police court for drunkenness more times than she can enumerate, was rescued this morning in Dogtown. Her cries attracted attention from other houseboaters, and they found her on the bed. She could not talk intelligibly, and her loud cries soon quieted as the liquor got in its work. Patrolmen Brennan and Shelby were summoned and took her in the patrol wagon to the city hall.

## BIG GOLD STRIKE IN CEMETERY IN BALLARA.

Sydney, N. S. W., June 20.—Gold miners are rushing to Ballara, where grave diggers in a cemetery struck a gold vein nineteen inches thick. Claims about the cemetery are being staked.

## Lexington Seeks Advice.

A copy of Paducah's apportionment ordinance passed in January, providing for the apportionment of funds for the different departments, has been sent Mayor Combs, of Lexington. He asked for it that ideas may be gotten by the Lexington general council in drafting such a measure for Lexington.

## Says He is Loaded For Auto Drivers Who Scare Horses

Mr. Harry Allen, of the Arcadia section, is a sworn enemy to the automobile and has authorized the statement that auto drivers had better beware of him as he is "loaded" for them. No particular dislike has he for the machines, but for the reckless way in which some drivers run

## HOW FIRST DISTRICT LOST SENATOR DEBOE

Defeated in County Conventions, He Was Unhorsed in District Caucus, And Saved From Limbo by Chairman of Convention

## HARMONY PREVAILED IN GRAND MEETING

Louisville, Ky., June 20.—The Republican state convention, called for the purpose of nominating a Republican ticket for state officers, convened at the Coliseum. There was a large crowd in attendance when Mr. R. P. Ernst, chairman of the state central committee, stepped for order. There were cheers when Mr. Ernst called the convention to order. The Rev. S. S. Waltz, of Louisville, offered prayer. Mr. Ernst then presented Judge W. H. Holt as temporary chairman and Mr. John G. Craig, of Kenton county, as temporary secretary. Mr. Robert H. Winn and Judge McD. Shaw escorted Judge Holt to the chair.

Judge Holt's Speech.  
Judge Holt began by saying that the state of Kentucky during the last few years has forged ahead to a considerable extent, but that she has not yet taken her proper place among the states of the union.

"Why have our resources not been developed?" he asked. "Is it because people in other states have heard that our laws are not enforced? That our courts are farcical? That our institutions are turned into places of abuse? Have they heard of the 'machine' I wonder if some of these things have not gone abroad in the land and have militated against the state.

"The people are demanding a Christian Sabbath in Kentucky. They do not want a 'jig' that goes on a few weeks before an election for party purposes, and then is taken off again. They are demanding temperance legislation, and they will continue to insist upon it.

"Let this convention come out and speak fairly and squarely. We do not want double-dealing or promises which we cannot or will not fulfill. We have a mission to fill, a charge to keep. Put aside prejudices and work in harmony. The cause is greater than the man. If every man does his duty this fall, we are bound to win."

## Committees Named.

The various congressional districts then handed up their lists of committee appointments. Nat C. Howard, of Butler county, offered a resolution providing that all resolutions subsequently introduced be referred to the committee on resolutions without being read.

Judge Holt made the following appointments on the various committees from the state-at-large: Resolutions—W. J. Deboe, George DuRelle.

Credentials—W. J. Seitz, of Butler; George W. Welsh, of Danville. Permanent Organization—J. M. Galloway and Major W. C. Owens.

Rules—W. W. Jones and J. A. Newman.

There were loud cries for Marshall Bullitt from all parts of the convention. There were also calls for Bradley and W. C. Owens.

Marshall Bullitt's Speech.  
The band played a few selections, and then there were calls for Bullitt. Some one made a motion to adjourn at 3 o'clock, and it was put to a vote. The motion was defeated almost unanimously. Renewed calls for Marshall Bullitt brought him to the stand. He was greeted with tremendous cheering.

Mr. Bullitt said: "If this convention expects to put forward a man who can win, he must be a man who can command the independent vote. The trouble with the Republican party in the past has been that it has not always stood for the highest ideals. The Republicans' opportunity has come again and they must not throw it away. We have seen how the Democrats, with the Goebel law and the machine back of them, failed to elect a governor. That is a matter of record. Then came the crowning calamity that has befallen the Republican

#### Championship Croquet.

Sunday, both in afternoon and morning, championship games of croquet will be played on the Fritz Metzger grounds on the Mayfield road between Jerome Smith and M. Hampton, and William Davis and Bennett Crane, Smith taking Metzger's mallet, Metzger and Hampton so far have retained the championship of the city, but Smith and Davis recently played remarkable

games, and the title of champion is in doubt. Five games will be played in the morning and five in the afternoon, the best six out of ten settling the championship.

#### LOSS OF LAUNCH

OCCASIONED BY COLLISION WITH TUG'S HAWSER.

No One To Blame For Accident Which Caused Naval Disaster at Norfolk.

Washington, June 20.—Admiral Emory, commanding the Fourth Division, Atlantic fleet who is at present the ranking officer of the American ships in Hampton Roads, arrived today with the report of the naval board of investigation, which has been looking into the circumstances surrounding the loss of the launch of the battleship Minnesota on the night of June 10. The board found that the launch had fouled a steel hawser with which the tug Crisfield was towing a barge carrying a number of loaded freight cars from Cape Charles to Norfolk. No criminality is attached to the officers of the Crisfield, who were in ignorance of the disaster.

#### COLD KILLS THE GERM.

Lieut. Perry Says There Are No Bald Heads in the Arctic Region.

The people who come back from Klondike testify to the fact that no native bald heads are there. The evidence is that the cold climate kills the germs that eat the hair off at the root. Lieut. Perry, who went to the Arctic Regions, gives the same evidence. Newbro's Herpicide has the same effect as the cold climate. It kills the germ that eats the hair off at the roots, and the hair grows again. Herpicide is the first hair remedy built upon the principle of destroying the germ that eats the hair off. Tom January (the name sounds cool in this hot weather) has gone back on the John S. Hopkins from the excursion steamer Louisiana.

The John S. Hopkins arrived shortly after 6 o'clock this morning and instead of going on down to Cairo, transferred the Evansville passengers for the Hustlers convention to the Dick Fowler, and returned to Evansville on time today.

Almost before the birds were up and long before the night owls, who wanted to take in the Cairo carnival were awake, the Dick Fowler pulled out for Cairo this morning as soon as the John S. Hopkins' passengers had been taken aboard. Friday and Saturday mornings the Dick Fowler will leave at 6 o'clock.

Six or more trips will be made between Paducah and Metropolis July 4, by the George Cowling on account of the W. O. W. celebration. The Royal will handle the crowds from Golconda and the Carrie Lee from Dycusburg. The Louisiana will come up from Cairo.

Burnt boilers has delayed the arrival of the Reaper from below for the last three days.

The Joe Wheeler didn't pay any attention to the press notices of its departure, and is still receiving freight at Jopka and the wharfboat here. Probably the Joe Wheeler will get away today for Chattanooga.

The Georgia Lee arrived from Memphis this afternoon and an already good passenger list was augmented by round-trippers from Paducah for Cincinnati.

The Kentucky will arrive tonight from the Tennessee river.

The Danbar was scheduled to arrive today from Nashville, and to return to that point, skipping the Clarksville trip.

Several barges of ties were brought in by the Lyda from the Cumberland river last night.

The Henrietta is in from the Cumberland river with a trip of ties. It seems that carrying persons in the pilot houses is another practice the inspectors are watching closely now. It is against the marine law and boats must have special permission to allow passengers to go into the pilot house.

The Fannie Wallace will be let off the dry docks this evening or in the morning. Five barges of the West Kentucky Coal company will be repaired at the dry docks.

Among the ideas of steamboating the founder of the Lee line had, was one of not allowing the relatives of one of that boat's crew to ride on the same boat with him. Captain Lee held that an officer in a crisis could not act unselfishly if he had a wife or a relative aboard and whenever one of the crew wanted a pass for them he had to route them on other boats.

The Hoamer is doing the harbor work for the Ayer-Lord Tie company. The fall of 1 in the last 24 hours leaves the river at about a stand with the gauge reading 28.1. On June 20 last year the stage was 9.9.

The St. Louis Waterways Journal says: We would like to know the address of Engineer C. F. Rowden. Anyone knowing his address will please send it to this office.

It is reported at Louisville that the steamer Avalon will enter the Cincinnati and St. Louis trade and that Capt. Sam Bryant, late of the steamer Georgia Lee, will be her commander.

#### Official Forecasts.

The Ohio at Evansville and Mt. Vernon will continue rising during the next 12 to 24 hours, then fall. At Paducah, not much change during the next 24 hours. At Cairo, will continue falling during the next two days.

The Tennessee at Florence and Riverton will continue rising during the next 12 to 24 hours, then fall. At Johnsonville will rise tonight.

The Mississippi from below St. Louis to Cairo, and the Wabash at Mt. Carmel, will continue falling during the next 36 hours.

## STATE TEACHERS IN BIG MEETING

More Than 250 in Attendance  
at Winchester

Interesting Topics Discussed by Pedagogues Concerning Their Work.

### TRUSTEES AND SCHOOL TAXES.

Winchester, Ky., June 20.—About 250 teachers are present at the state convention of the Kentucky Educational association and more are expected on the trains today and in the morning. It is said the students of the Eastern Normal school at Richmond will attend about 100 strong and an equal number is expected from the Normal school at Lexington.

Over 600 teachers have joined the association and paid the fees.

The association was late in assembling this morning, but speedily got down to work. The invocation was pronounced by the Rev. Edward Crafton, of the Cumberland Presbyterian church. The address of welcome on behalf of the county by the Hon. John E. Garner was characteristic. He believes our public graded schools are attempting too much and that the sole object should be to prepare men and women for their life work and that when the elements of an English education are given to the pupil the duty of the taxpayer to that child is done. President H. K. Taylor, of Kentucky Wesleyan college, welcomed the visitors in behalf of the city and its schools. The keynote of his speech was the vital connection between the public schools and the college and the necessity for harmonious action between them. Barksdale Hamlett, of Hopkinsville, president of the association, responded in an eloquent speech.

"The New and the Old in Education," a vivid contrast between that which has survived from past systems and the outgrowth, was discussed by Prof. Edgar H. Crawford, of Richmond, and Prof. R. H. Shipp, of Carlisle.

At the afternoon session "Educational Progress in Kentucky" was

discussed by President W. G. Frost, of Berea college. He was quite optimistic, and thinks the schools of Kentucky have a great future in store for them. J. C. Cheek, of Fulton, spoke on "The Tenure of the Teacher's Position." He thought both superintendent and teacher should be elected for longer terms and with a civil service basis.

State Superintendent J. H. Fuqua spoke on "The County Board vs. the Trustee System." He favors instead of the present system of district trustees a board of four members, to be chosen from the county at large, with the county superintendent ex-officio a member to have charge. In each district there should be a director to look after the house and its equipments and to take the census.

**Needed Legislation.**  
D. A. Clinger, of Maysville, discussed "Needed Legislation." He favors district high schools instead of county high schools, and favors local taxation so that people will be interested. He believes the law prescribing uniform series of books should be repealed, and that the compulsory educational law should be enforced.

## FATAL SHOOTING

CAIRO CAB DRIVER KILLED AT  
CAIRO UNION STATION.

Man Said Driver Lied and Scuffle  
Ensued, in Which Latter Was  
Shot.

Cairo, Ill., June 20.—A fatal shooting affray occurred at Central Union station, in which Fred Korn, a lumber inspector, shot and killed a well-known negro hack driver, named David Bham, Korn was arrested shortly after the shooting by two other hack drivers, Henry Thompson and John Watson, as he was running down Railroad street, below the Halliday. He was turned over to Chief Egan and placed in jail. Coroner McManus held an inquest and the jury returned a verdict holding Korn without bail, and he was taken to the county jail for safe-keeping.

It is gathered from all the evidence that Korn asked the negro as to where some men had gone, and the latter directed him inside the depot. Korn went inside and returned in a minute saying to Bham, "You told me a lie."

The negro resented this and angry words were exchanged. The negro started toward Korn and then the latter drew his pistol. Bham caught him before he could shoot, and there was a scuffle during which the negro tried to get the pistol and Korn tried to bring it to bear upon the former's breast. Korn succeeded in his purpose after a struggle and fired a single shot, which passed through the negro's breast.

London Has 79,000 Beggars.

London, June 19.—Beggings has long been illegal in London, and offenders are liable to various terms of imprisonment. Nevertheless thousands in London alone evade the law and live in comfortable idleness. The annual report of the London Mendicant society just issued states that it probably is no exaggeration to say that more than \$500,000 annually is given haphazard to beggars in the streets of London, and that probably the average beggar earns more than the average workman. The society, which exists to investigate the begging business, to help deserving cases, and assist in punishing incorrigible possessors 79,320 records of street beggars.

Indian Chief to Tour Europe.

Fort Worth, Tex., June 20.—Chief Quannah Parker, of the Comanche Indians, who was visited last evening by Ambassador Bryce, of England, announced his intention of touring Europe. He will visit the leading cities and will be the guest of Ambassador Bryce while in London. The chief and Ambassador Bryce have become warm friends.

## ROOF FELL IN

BEFORE FULTON FAMILY WAS  
AWARE OF THE FIRE.

Little Girl Sustains Serious Injuries  
Trying to Save Her Baby  
Sister.

Fulton, Ky., June 20.—The two-story residence located on State Line street occupied by the families of Joe Bryant and Will Byars, was destroyed by fire. Several guns were fired off to arouse the neighborhood and the sleeping occupants of the burning house. Mr. and Mrs. Byars were awakened by the noise but Mr. and Mrs. Bryant were still fast asleep when the roof, covering the room they occupied, fell in. Luckily the roof fell in such a manner as not to injure Mr. and Mrs. Bryant and Luke Moneyham and others got the most of the building.

The furniture in the first story was all saved, but a large amount in the second story burned. Messrs. Bryant and Byars had but little insurance on their household effects. The house was the property of the heirs of Mrs. Goodwin Boaz and the Grief children. It was valued at \$1,500 and insured for \$1,250.

**Little Boy Dies.**  
At 5:15 o'clock yesterday afternoon Herbert, the 10-year-old son of Mr. and Mrs. J. J. Oliver in South Fulton died.

Injuries Are Serious.

While wheeling her baby sister, Mary, in a go-cart on the veranda of her parents' home, little Stella Anderson rolled it too near the edge and it turned over spilling the baby out on the ground. In trying to prevent her little sister from falling, Stella also fell. She fell on the go-cart and rolled over it to the ground, her head striking the sharp corner of a brick. A long gash was cut on her head and it is feared she sustained a concussion of the brain. The baby was uninjured.—Fulton Leader.

Caught Robber.

Officers Walker and Eaker arrested Birdie Williams, colored, who they suspected of robbing George Cherry, a well known man who hauls between Fulton and Duketown. Mr. Cherry was robbed between here and Duketown a year ago. After the arrest was made the officers notified Mr. Cherry who came and identified Williams as being the robber. Williams will be turned over to Hickman county officers as the holdup occurred in that county east of Fulton.

## Cordial Mid-Summer Greeting

To Taxpayers:

You are hereby respectfully reminded that the first half of your city tax is now due. This friendly notice is intended to save you from forgetfulness, which might cost you 10 per cent. penalty.

Would earnestly request all who can conveniently do so, to call at the city treasurer's office soon as possible and thus avoid the crowd that usually throngs the office on the last few days. Ten per cent. is added to all unpaid June bills, after July 1. Call early and greatly oblige.

Yours very truly,  
**JOHN J. DORIAN,**  
City Treasurer.

LONE MAN ESCORTS WOMEN;  
NOW HE'S FOR TO CUPID.

Alton, Ill., June 20.—Frank Fisher, of Alton was the only man who accompanied thirty-five women members of the Marguerite Camp No. 509, Royal Neighbors of America, on a trip from Alton to another camp of the order at Staunton, Ill. Husbands, brothers and sweethearts were invited to make the trip to Staunton, but every one sent regrets save Fisher.

Fisher and the thirty-five women returned to Alton this morning, and here is Fisher's log book of the trip: Was asked and tried to answer 3,473 questions.

Carried forty-three separate pieces

of baggage.

Was invited to buy ice cream for the whole party seven times.

Had one proposal of marriage.

Was hit with contents of powder box, used as a substitute for confetti.

Received the juice of an orange down his neck, the orange being squeezed purposely by a woman.

Blamed and denounced because party missed interurban connections at Edwardsville.

When the party arrived here at 2 o'clock this morning seventeen women demanded that Fisher escort them home, but he fled.

SCIENTIST BEARS MESSAGE  
SENT 93,000,000 MILES.

Pittsburg, Pa., June 20.—Dr. John A. Brush, the astronomer, said this evening in speaking of the present disturbance in the sun: "Sir William Preese, the great English electrician, recently told me that he believed he had heard more than one solar storm in the telephone. He knew there was some unusual magnetic disturbance causing the trouble when he was testing some telephones in his laboratory."

"And why not? We all know what difficulty we have in sending or receiving messages when there is much induction in the same, and in the case

of magnetic storms, induced by solar disturbances, they certainly would affect the telephone service. During the disturbance following the last great spot I received letters from all over the country from electricians and cable operators giving accounts of difficulties in transmitting messages. One cable operator wrote me that instruments were greatly disturbed on both sides of the Atlantic. "With all this evidence may it not be quite within the range of possibility, may probability, that Sir William Preese could hear the solar bombardment in the receiver of his telephone, isolated from other sounds, though the message was sent 93,000,000 miles by wireless?"

Daily Thought.

No man or woman of the humblest

sort can really be strong, gentle,

pure and good without somebody be-

ing helped and comforted by the very

existence of that goodness.—Phil-

lips Brooks.

THE PASSING OF DEBOE.

Time was when the name of W. J.

Deboe was a word to conjure with

things Republican in the First con-

gressional district. Within a decade,

now history, a glance from the tail

of the eye of the senator from Ken-

tucky sealed the fate of the small fry

politician and silenced the clamor of

the county chairmen. Crittenden

county then gave the word to The

Purchase and it was done, even as

Deboe said. Time was, we repeat;

for times change, old things pass

away and a new order takes their

place even as stronger men have sup-

planted the once valiant Deboe.

It's a pity a politician doesn't

paste the "dope" on his horoscope in

his hat, and retire when the limit

expires. It would save his getting

knocked in the head and dragged out

of the caucus, when the men to

will be associated with the First dis-

trict organization so long as the

generation that knew him exists, but

here in west Kentucky we know that

Deboe is down and out, and with his

extinction goes the bitterness of fac-

tional warfare that has cut the party

organization to pieces.

The popular successor to the De-

boe regime is auspiciously inaugurat-

ed with the selection of two west

Kentuckians to honorable positions

on the state ticket. With Capt. Ed

Farley for state-treasurer, and the

learned, eloquent Judge James

Breathitt for attorney general, the

Democratic majority in this end of

the state will fall off 5,000 votes.

Even the orthodox Kentucky State

Journal says:

"Hon. Augustus E. Willson has

waited a long time, but has nearly

reached his ambition. Having re-

ceived almost unanimous instruc-

tions, he will be nominated for gov-

ernor by his party, an honor he has

long sought and mourned because he

got it not. Mr. Willson will not be

elected, but he will make a credit-

able race. He is a pretty clean man

and an able one, and if he does not

poll his party's full strength it will

be because the federal office holders

put him up to knock him down."

Mrs. Potter Palmer will join the

ranks of the contributors to the

renaissance of the British nobility.

Nashville has a concern for the

manufacture of fertilizer from the

air. Here's a chance for the Padu-

cah board of public works to replete

its funds by turning some of the

stagnant gutter pools to account.

HONESTY AND DIPLOMACY.

The United States of America ac-

complishes an international coup

every time she performs a noble act

in an altruistic spirit. Europe does

not appreciate the motive, but as-

cribes the deed to Yankee cleverness,

and then intrigues to offset the re-

sult. American influence in China

is now as nearly dominant as any na-

tional influence can be. We have

little hope of continuous positive re-

sults from this American influence,

but negatively we have given Japan

and Russia a backset in their Asiatic

ambitions. This effect will be last-

ing. Chinese statesmen have learned

that America has no designs on their

territory. The relinquishment of all

the indemnity exacted for the Boxer

outrages above the actual monetary

damages to this country is a bit of

evidence of this. European nations

exact exorbitant sums for the pur-

pose of embarrassing China and mak-

ing her easier prey for their exploit-

ations.

In Cuba we fought for the freedom

of the Cuban. In the Philippines

our course generally has been guided

by an eye single to the welfare of

the inhabitants of the archipelago.

Our attitude in The Hague confer-

ence must be reassuring to South

America. We are asking for no ad-

vantages for ourselves. The admin-

istration has relinquished all oppor-

tunities to win honors for bringing

the nations together, and dropped

the initiative in all questions de-

signed to embarrass Europe. We

ask only that the Drago doctrine, for

the protection of Latin America from

forcible collection of debts, private

debts, be recognized.

Our relations with South America

are closer and more friendly than

ever before. Europe a few years

since endeavored to embarrass us in

that direction, and Germany has been

particularly aggressive in the com-

mmercial invasion of the western hem-

isphere. To Secretary of State Root

honors are due for the recognition of

our opportunities in that direction

and the cementing of friendly re-

lations. Secretary Taft has been our

agent in pacifying our island posses-

sions.

Altogether, our foreign policy to-

day is on a firmer foundation than

ever before. Our international re-

lations are simple. We are only

seeking fair play and open markets

in the east; the protection of our

rights and the rights of our neigh-

bors in South America and the peace

of the world.

Honesty of purpose and method is

as essential to success in the new-

paper field as to success in any other

line of human endeavor, and it has

been our observation that the result

of a newspaper enterprise as a busi-

ness venture is measured by these

ideals. This reflection is called up

by the assertion in a scrawny little

local sheet that "Certain members

of the whisky-corporation gang own

stock in both the Paducah News-Dem-

ocrat and the Paducah Evening Sun,"

the apparent inference being that the

same people own, or control, the two

papers. This statement is absolutely

false, as could have been ascertained

by the writer, if he had possessed the

least atom of that qualification, we

have just mentioned as essential to

success. Not a penny's worth of

stock in The Paducah Evening Sun

is owned or controlled by any stock-

holder of the News-Democrat. The

veracity of the remainder of the ar-

ticle may be judged by this.

If the members of the board of

public works did not exact from the

contractors who built concrete side-

walks and curbs a warranty of the

work, they are unfaithful servants

of the people. If they did and the

sidewalks and curbs are not up to

specifications why don't they compel

the contractors to make good the de-

fect? Of course, "when the general

council decrees that granite curbing

and gutters must be built, there is

nothing left for the board of pub-

lic works to do but to carry out the

ordinance," except to see that the

city's interests are protected in the

contracts and the contracts lived up

to. This board is forever finding fault

with the limitations of its authority

and dodging responsibility for those

things that are within its jurisdiction.

The members should recall the para-

ble of the steward with only five tal-

ents and be faithful in little things.

If they would expend the same en-

ergy and enthusiasm in carrying out

the will of the general council that

they wasted in an effort to control

some of the city patronage, city

work would come up to specifica-

tions.

Democratic papers would have it

appear that the failure to indorse

Taft for president by the state con-

vention was a blow to the administra-

tion. No doubt Fairbanks and Knox

were against any indorsement of the

secretary of war; but the fact re-

mains that the idea of indorsing him

was the scheme of the irresponsible

press of Louisville, and party leaders

actually favorable to Taft opposed

any mention of the presidential race

at this time for harmony's sake. If

an organized effort had been made

to indorse Taft, he would have won.

## AOKI'S BREAK

WILL COST HIM HIS DIPLOMATIC

POSITION HERE.

Mistook Roosevelt's Silence and He

Brokech Indemnity Proposi-

tion Too Soon.

Washington, D. C., June 20.—In-

quiry in diplomatic circles here has

brought to light an interesting series

of reasons why Viscount Aoki, the

Japanese ambassador, will soon be

withdrawn by his government. Aoki's

recall is due to three things: Being

out of favor with President Roose-

velt; having married a German wo-

man (which made him unpopular in

his own country), and not getting

full social recognition from the mem-

bers of the diplomatic corps here.

His fall from grace with President

Roosevelt grows out of the troubles

on the Pacific coast. The president

became so irritated at the viscount

that he directed him to conduct his

business in the future with the sec-

retary of state. When an ambassa-

dor is in good standing he deals di-

rectly with the head of the govern-

ment. Aoki diplomatically hinted

that the United States should give

indemnity to Japan for the San Fran-

cisco mob's outrages. President

Roosevelt remained silent, and mistak-

ing this silence for acquiescence

in the suggestion, the ambassador

made a definite proposition that the

United States pay an indemnity.

There was no mistaking the presi-

dent's attitude then. He forcibly ex-

pressed disapproval of the proposi-

tion, dismissed the ambassador with

advice to conduct his negotiations in

future with the state department.

Secretary Root was informed of the

incident and immediately changed

his demeanor toward the Japanese

ambassador. Since that time the in-

tercourse between the two men has

been cold and formal, only official

matters being discussed when they

met.

## IN THE COURTS

## Circuit Court.

Suits have been filed as follows:

William F. Horton against Claudie

F. Horton, for divorce, on grounds

of association with immoral persons.

They married February 10, 1907, and

separated June 1.

## Deeds Filed.

George Rawleigh to W. T. Banks,

property on Burnett street, \$1,-

223.80.

C. N. Baker, to Big Ten Improve-

ment company, property in Terrell's

Fountain park addition, \$2,615.78.

Adrain Greif to Andrew P. Hum-

burg, property on west Kentucky av-

enue, \$50.

## Marriage Licenses.

Columbus Peyton to Mariah Perry,

colored.

Eugene Bryan to Floe Smith.

## In Bankruptcy.

Judge Thomas Evans was at

Smithland elected trustee for the

creditors of the bankrupt estate of

Mrs. Byrnes Clark.

Creditors on attachments of James

Jackson, bankrupt, will have to pay

into the bankruptcy court \$150, se-

cured in the state court. This order

was made by Referee E. W. Bagby

this morning. The claims were filed

and paid within four months before

the act of bankruptcy. A. E. Boyd

was elected trustee in the Jackson

case with a bond of \$100.

In the bankruptcy matter of J. L.

Wanner, Attorneys Eaton & Boyd

filed a claim for \$250 attorneys fees,

and were allowed \$125. They rep-

resented petitioning creditors.

## Police Court.

Fred Grover, who left Rob Noble's

farm, where he had been employed

a few days, carrying away two pis-

tols, two watches and some small

change, was arrested yesterday after-

noon by Deputy Sheriff Gus Rogers

and City Jailer Tom Evitts in the

county near Paducah. On him were

found two pistols and one of the

watches stolen. He was presented in

court this morning and his case con-

tinued.

Birdie Allen, charged with running

a disorderly house, continued.

The Columbia Manufacturing com-

pany of Mechanicsburg, has been

summoned to appear in police court

tomorrow to answer to a charge of

breach of ordinance. It is claimed

that water is permitted to run over

the pavement from its plant.

## American Chivalry.

Toward woman the American man's

attitude is fine. She is neither his

deity nor his doll. He simply treats

her with deference. His chivalry has

as little to do with saccharine uter-

ances, scraping feet, and beaded

knees, as has his patriotism with

hysterical shriekings and the waving

of ensanguined flags. He is stronger

in his silences and of his household

submission to the ladies of his house-

hold than the most blatant vulgarian who

prates of domestic domination.

Place, axes Dames is more than a

phrase to the American man. His

inborn respect for her "rights" often

causes him to sacrifice his own God-

given privileges. Upon the face of

the earth or upon the waters thereon

exists no more chivalrous being than

the American gentleman.—Minna

Thomas Antrim in March. Lippin-

cott's.

## A Year Without a Summer.

The year 1816 was known through-

out the United States and Europe as

the coldest ever experienced by any

person then living. There are per-

sons in Northern New York who have

been in the habit of keeping diaries

## The Dawn of Reason.

In the days of unreason, when

thinking by the many was at a dis-

count, and man accepted and follow-

ed the beaten trails of custom, super-

stition and prejudice, disease was

thought to be the results of the ac-

tivities of evil spirits. In order to

cure, the spirit must be driven out,

and spells and incantations were re-

sorted to. Later man considered dis-

ease a visitation of the just, wise,

merciful Almighty Father—Who in

His infinite wisdom, they thought,

saw fit to inflict pain, misery and de-

formity on His children.

As man began to make use of his

thinking powers he began to realize

that disease is not a thing but a con-

dition; a state, a discord in nature,

and that "within himself he must

seek succor;" that the laws of na-

ture or the laws of God, and that both

are perfect—improvement, as well

as disregard of them impossible.

Health is normal and natural. Os-

teopathy so recognizes it and endeav-

ors, when the symptoms become man-

ifest in the human body, to discover

and right the cause. The osteopath

searches for and locates the structural

derangement. No matter what is the

nature of disease, it could not exist

if there was normality of structural

make-up.

Osteopathy is doing much for peo-

ple in Paducah you know well and I

should like to refer you to some of

them, at any time, if you are inter-

ested, or to have you consult me with

reference to your particular ailment.

Call me at 1407, or come to my of-

fice, 216 Broadway, upstairs, at any

time from 9 a. m. to noon, or 1:30

to 5 p. m. Dr. G. B. Froese, Osteo-

path.

## PEOPLE AND SOCIAL EVENTS

### Maxwell-Wallace

Mr. Blee Wallace, the well known young druggist, and Miss Mildred E. Maxwell, of Brussels, Ontario, were married yesterday afternoon at 5 o'clock at the residence of Mrs. C. E. Gridley, Sixth and Clay streets, and shortly after left for a bridal tour of the east. The wedding had been secretly planned, and only a few of their intimate friends knew of it. The ceremony was performed by the Rev. W. E. Cave, pastor of the First Presbyterian church, in the presence of the family and a few friends, and after their return from the east they will go to housekeeping.

Mr. Wallace is a member of the firm of Iverson & Wallace, pharmacists, Seventh and Washington streets. He has been in the retail drug business here for years, and is a young man of much business ability, standing high in his profession. His bride is the sister of Mrs. C. E. Gridley, and when she came here three years ago to visit, Mr. Wallace met her. Miss Maxwell returned to Paducah a year and a half ago to visit again and during her visit made many friends.

At 6:15 o'clock last night the couple left for the east. They will tour the principal cities and also visit the Jamestown exposition before returning, making a two weeks' trip.

### Woman's Club Tent.

Yesterday was a good day at the Woman's club tent at the Chautauque, but not such a crowd was out as on the preceding days and the business fell off a little. Today Mrs. Frank Gohrn is the chairman and she and her assistants expect to do a big day's work. Those in charge Friday will be: Mrs. Victor Voris, chairman; Mrs. Joseph Bloomfield, treasurer; and Mesdames William Hughes, Campbell Plourney; E. M. Post; Edward Bringham; Henry Rudy; Sidney Loeb; and Misses Frances Wallace, Faith Langstaff, Henry Alcott, Marjorie Scott, Mary Bolling, Helen Hills, Garnett Buckner, Alme Dryfuss, Lucile Weil, Anita Keller, Belle Cave, Sue Thompson, Mary Cave, May Schaeffer, Miss Harriette Rains, of Nashville; Sadie Paxton, Anna Stripling, of Fort Worth, Tex.; Fred Paxton, Robbie Lovings, Mary K. Sowell, Lillian Hobson, Sue Dabney, Kathleen Whitefield, Aerie May Yelzer; Hazel McCandless, of Memphis; Florence Loeb, and Manie Cobb, and Helen Dillon, of St. Louis.

### Party Left For Cincinnati.

A party went to Cincinnati today on the Georgia Lee for the round trip. Those in the party were: Mrs. William Gilbert and Misses Adah L. Brazelton, Marion P. Noble, Marjorie Crumbaugh, Mary Brazelton, Katherine Crumbaugh, will make the trip to Cincinnati, but she will leave there by rail for Somerset, Ky., where she will spend the summer.

### Carpe Diem Entertained.

Miss Maggie Lydon, 422 South Tenth street, entertained the Carpe Diem club last night at euchre. Miss Marie Roth won the first prize and Miss Camille Legeay captured the lone-hand prize, and for the boys Mr. Paul Legeay won both the first and lone-hand prizes. The next meeting will be with Miss Minnie Pieper July 2.

### Church Guild Entertained.

Mrs. J. C. Flournoy entertained the Guild of the Grace Episcopal church yesterday afternoon with an informal tea at her home on Jefferson street. Eight new members were added to the membership roll. This will be the last meeting during the summer months, the next meeting being held in the fall.

### Surprise Their Hostess.

A surprise wedding of which even the groom's sister, who was also the hostess of the bride, knew nothing until after it had taken place, was that of Mr. Eugene Bryan to Miss Flo Smith, both of Mound City, yesterday afternoon. Both are well known and popular here and had come to visit. Slipping away in the afternoon for a drive, they secured a

license and had the knot tied hard and fast and had returned before the news reached their relatives.

Mr. Bryan is yardmaster for the Williamson-Kusey Mill and Lumber company in Mound City, and Miss Smith is the daughter of Mr. John Smith, connected with the same firm. They came here to visit Miss Ella Bryan, of Fourth and Clay streets, a sister of the groom. Yesterday afternoon they started out driving and going directly to the court house secured a marriage license. Next they went to the residence of the Rev. W. T. Bolling, pastor of the Broadway M. E. church, where they were married at 4:30 o'clock. Returning to Miss Bryan's residence, they announced the wedding and are at the Palmer House for a few days. Mr. and Mrs. Bryan will leave this week for Mound City to reside.

Tonight at the residence at Fourth and Clay streets, Mrs. Frank Hill will entertain with a supper in their honor.

### Dance at Park.

A dance will be given tomorrow evening at the Wallace park pavilion by the young society men in honor of visiting girls in the city. The list is at the cigar stand in the Palmer House.

### Entertain This Evening.

Miss Agnes O'Loughlin will entertain this evening at her home, 925 Broadway, complimentary to her brother, Mr. Joseph O'Loughlin. The party will be an informal one.

### Boating Party.

Mr. Carl Bealer will give a boating party this evening up the river and return. The party will leave at 7:30 o'clock. Those composing the party are: Misses Garnett Buckner, Elizabeth Sobree, Marjorie Lovings, Nella Hatfield, Mary and Gertrude Scott, and Messrs. Richard Scott, Carl Bealer, Rodman, Louis Gabel and Fred Gilliam. Mrs. Thomas Hall will chaperone the party.

### Mrs. Friedman Entertains.

Mrs. Joseph Friedman entertained informally this morning at her summer home, "The Pines," at five hundred, complimentary to Miss Laura January, of Columbia, Mo.

### Mrs. Parham Improves.

Mrs. Frank Parham is much better today and her relatives are encouraged over the change in her condition. They think she has passed the crisis and begin to show hope for her recovery. Last night she rested well and today shows an improvement over yesterday.

## CREDIT MAN

WORKED CREDIT TO FINISH IN PADUCAH, IT IS SAID.

T. N. Letcher Under Arrest in Memphis on Charge of Converting Money and Valuables.

T. N. Letcher, formerly Paducah manager of the National Credit company, is under arrest at Memphis, charged with converting \$115 and a diamond ring of Lulu White to his own use. He will be brought back as soon as requisition papers arrive. Letcher is also accused of going to Roy L. Culley's store one day after he had been succeeded as manager of the credit company, and securing \$19 worth of clothing, alleging that he was still employed by the credit company. Letcher bought clothing at the White store, but got it on his own credit, it is claimed.

He came here several months ago and seemed to be popular, making many friends and creating a great deal of business. It is said that the safe combination is out of repair, and Manager Westfall cannot open the safe to see in what condition Letcher left the loan company's business.

## AUTO WHEELS

W. H. Parham Will Endeavor to Organize Company to Manufacture Invention.

W. H. Parham, who has patented a wheel, which he believes will revolutionize the manufacture of automobile wheels, is today arranging to organize a stock company to manufacture his wheel, and if he succeeds he will add a \$100,000 corporation to Paducah's fast growing industrial interests. Mr. Parham has on display at the Foreman Machine and Novelty company shops on North Fourth street, models of his wheel. He claims to have solved the problem of automobile wheels. Pneumatic tires constantly go down and this is the greatest source of trouble to machines now. By creating the spring in the spokes, he secures the same elasticity that pneumatic tires give, making it possible to use a solid rubber tire.

party—the assassination of William Goebel.

"I say that the men, whoever they may be, who are responsible for Goebel's murder ought to be given the extreme penalty. If the Republican party wants to succeed in the coming campaign, it must not shrink from this issue. The man or men who committed that crime ought to hang."

The Democratic machine in Louisville has come to grief. The mayor of the city, according to the court of appeals, is an election thief, and was in a conspiracy to steal the election. Now it is the time for us to do our best, and if we do it, we can win."

Mr. Bullitt was greeted with hearty cheers as he left the stand.

Bradley Takes the Chair.

The committee on permanent organization reported in favor of making former Gov. W. O. Bradley permanent chairman of the convention. John J. Craig, the temporary secretary, was made permanent secretary.

E. P. Franks and Marshall Bullitt were appointed to escort Governor Bradley to the front of the stage. He was applauded vociferously as he came forward. After taking a drink out of the water pitcher, which he lifted in both hands, as a glass was lacking, Gov. Bradley electrified the convention by shouting: "Boys, we've got 'em!"

Fight Over Temporary Organization.

Backed by the combined influence of Mr. John W. Yerkes and former Gov. W. O. Bradley, the Deboe-Franks-Fairbanks combine succeeded yesterday in defeating Mr. William Marshall Bullitt for temporary chairman of the Republican state convention in a fight before the Republican state central committee.

As a compromise the names of both Mr. Bullitt and Mr. Franks were withdrawn and Judge W. H. Holt was agreed upon for the position.

Want Roosevelt Man.

In spite of the work of the Fairbanks organization, resolutions were adopted, demanding a Roosevelt man for president.

INSERT Resolution TEM 1233

The Resolutions committee voted no on the question of the endorsement of a candidate for the Republican nomination in 1908. W. J. Deboe, who is an avowed Fairbanks man, fought on the committee to remove every trace of Taft from the resolution. The Taft forces included three of four Republican congressmen from Kentucky, namely: J. B. Bennett, John W. Langley and D. C. Edwards. Congressman-elect A. D. James demanded a resolution without a semblance of Taft.

The question of the endorsement of President Roosevelt and his policies were first approached. On this there was no debate; but Mr. Langley offered the Mt. Sterling resolution, which says on the subject of endorsing a candidate for president:

"They believe that the Republican party, in order to be successful at the next national contest must nominate for president a man who is in full accord and sympathy with the purposes of the present administration and who will carry out its policies."

The First District.

"One of the interesting features," says a Louisville paper, "was the caucus of the First congressional committee."

Frank Fisher, postmaster at Paducah, who is managing the canvass of Capt. Ed Farley, arrived yesterday with 140 delegates from the First district. The First district headquarters are in room 128, Louisville Hotel, where the canvass of Capt. Ed Farley is being pushed with might and main.

Former Senator W. J. Deboe had fought against instructions for A. E. Wilson all over the First congressional district, while Postmaster Fisher of Paducah, not only led the fight for Wilson, but also managed the Farley boom, and was responsible for the candidacy of Judge James Breathitt, of Hopkinsville, for attorney general.

Deboe was whipped in the counties and defeated in the organization of the district. The First and Second districts came here with an understanding that Farley and Breathitt

# S.S.S. GREATEST OF ALL TONICS

Everyone should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from breathing the impure air of closed rooms and overheated buildings; the heavy, rich foods of the Winter season, etc., and when this vital fluid is aroused and stirred to quicker action by the return of warmer weather, these waste matters and poisons are distributed through the circulation, to act depressingly and injuriously on the system. The blood being in this unnatural and impure condition is unable to furnish the body with the proper amount of nourishment and strength, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation.

The depleted system must have assistance; it needs a tonic and it is important that the proper one be selected. When the health is in this disordered condition it is not safe to take unknown concoctions, sarsaparillas, etc., because they usually contain potash or other strong mineral ingredients which act unfavorably and often dangerously on the run-down, weakened system, at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. A great deal is being said these days about living close to nature, and it is more applicable to medicines, perhaps, than anything else. Nature has provided a remedy for all the ills of mankind, and medicines made from nature's vegetation act better in every way than do the strong mineral mixtures which are the products of the chemist's or apothecary's shop.

The greatest of all tonics is S. S. S. It is made entirely of the roots, herbs and barks of the forests and fields, selected for their purifying and health restoring qualities; and as it does not contain the slightest trace of mineral in any form it is especially adapted for a systemic remedy, one that is absolutely safe for young or old. S. S. S. acts directly on the blood, ridding it of any and all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is enabled to supply to the system, the healthful, invigorating energy needed to pass this trying season of the year. Its action is the most prompt, pleasant and satisfactory of all tonics and blood purifiers, and those who are beginning to feel the need of a medicine to fortify the system against the unpleasant conditions that come with Spring, will do well to commence its use at once. It will not only tone up the system, but will remove any taint or humor that may be in the blood and thus prevent an outbreak of Eczema, Tetter, Salt Rheum or other rash or eruption of the skin. S. S. S. restores lost energy, relieves that all worn out, tired feeling, quiets the nerves, helps the appetite and imparts a relish for food, and in every way adds tone and vigor to the entire system, and prepares it for the depressing Summer months that are to follow.

In selecting your tonic for this year do not be led into believing that others are "just as good," but get **S. S. S., THE GREATEST OF ALL TONICS**, and one that for more than forty years has been recognized as such. It is Nature's tonic, absolutely pure and safe, and reliable in every way. S. S. S. is for sale at all first-class drug stores.

**\$1,000 FOR PROOF THAT S. S. S. IS NOT PURELY VEGETABLE**

were to have the votes of both districts. Then complications arose and combinations were entered into for the sake of harmony, which indicated that Judge Breathitt would be left out of the reckoning. But the Farley organization made good, kept their word and carried Judge Breathitt along.

"The West Kentucky contingent was jubilant after the convention, having whipped Deboe at every turn and dictated the nomination of two men on the state ticket. They say the nomination of Farley and Breathitt and the elimination of Deboe will cut the Democratic majority in western Kentucky one-half."

Dishonest thinking does not lead to holy living.

## IN SEVEN YEARS CITIES CHANGE

Mr. Lou Beauchamp Cannot Recognize Old Paducah

Big Attendance Is Expected Tonight To Hear His Lecture at Chautauqua.

THE BOYS AND GIRLS CLUB

"Seven years ago, I think it was, that I was in Paducah and I never saw such a change in any city in my life. Paducah hardly could be dignified by the name of city then, but these seven years have seen a marvelous change. I have not seen any city in Kentucky that can show as much growth," remarked Mr. Lou Beauchamp, this morning as he rode in from the park and saw the wilderness in his former visit, a handsome residence, section now.

Of course, Mr. Beauchamp reserved his best lecture for the last, which he will give tonight at 8 o'clock in the Chautauqua auditorium. Enthusiasm marks the expressions of those who heard him yesterday and a pretty evening will see one of the largest crowds that have attended this year. His audience yesterday afternoon broke the record for afternoon attendance. Dr. Krebs held the record previously.

In their first appearance, the Wesleyan Male quartet are entertaining the Chautauquans this afternoon. They will have one more number tomorrow afternoon. The Chautauqua concert company will remain until the close of the Chautauqua.

Through a typographical error, the program did not show a Boys' and Girls' club number for this morning, but the children were on hand as usual to follow Miss Hemmings' interesting leadership in the dancing pavilion. Hoop rolling supplied the fun this morning.

Tired with their physical culture work, the children were glad to sit down to a lecture on nature by Mr. James Speed and they were more delighted than ever. They are much interested in some pictures of bird's nests he will take, and this interest was accentuated by his lecture with stereopticon slides last night. Beautiful scenes in nature were presented in this lecture and the audience was as favorably impressed with Mr. Speed as the children.

Senator Carmack's appearance tomorrow evening at 8 o'clock will be the high-water mark of the Chautauqua. Colonel Patterson and Byrd are trembling at the thought of the onslaught of the crowds at the Chautauqua gates.

Dr. Vernon Rhyne is in charge of the Chautauqua hospital tent today, and Dr. Della Caldwell will be in charge tonight.

Not Guilty.

Mrs. Sabhu—So you claim to be a good cook. Can you make novel dishes? New Girl—No'm. I don't read novels.

Architectural Surgery.

Amputation is to be applied to the Singer building, at Liberty street and Broadway.

Work on the scaffolding began yesterday and a small army of men will be occupied night and day until it is completed, the undertaking being confined to the original corner building, which is to be a part of the monster forty-one story structure now going up—the tallest office building in the world.

According to Ernest Flagg, the architect, the slicing necessary in order that the eleven story building shall conform in height and outline to the new fourteen story addition.

Instead of actually raising the four top floors enclosed under the mansard roof, the roof and structural material will be removed in sections to the ground. The eighth, ninth and tenth floors will then be built on, after which the old mansard roof, inclosing the four additional floors, will be replaced section by section.—New York Herald.

## BRAZIL'S FUTURE PROSPECTS GOOD

Something of Development of Her Resources

Railroads Being Built and Municipal Improvements in Progress in That Country.

WHAT ENGINEERS ARE DOING.

Dr. Elmer L. Corbitt, the famous engineer, says that many other notable improvements are in progress in Brazil, most of them of American enterprise and capital.

"One of the most important commercial works recently undertaken by the Brazilian government is the new port of Para," said Dr. Corbitt, "the concession for which, to build and operate for a long term of years, has been granted to an American citizen. It will be a modern port in every sense of the word—where the largest sea-going ships may enter and come alongside of substantial masonry wharves, with a depth of water of over 30 feet, with hydraulic or electric cranes, railroad tracks, steel frame warehouses provided with all the facilities for handling and storing freight, with paved areas on each side of the warehouses, with coal-handling plants of the latest design, and, in fact, all the very latest and most approved port facilities."

"In the concession the government grants the right to collect the usual port dues to reimburse the company for the cost of the works and the expenses of maintenance and operation, and practically guarantees 6 per cent interest upon the capital invested, which is secured by the collection of a tax of 2 per cent. gold on all imports into the port. Contracts for the construction of the works have been let to Messrs. S. Pearson & Son, Limited, of London, who are engaged also in building the Dover harbor works, the four East River tunnels of the Pennsylvania railroad, and other great works. The contract for the superstructure and most of the freight facilities, electric cranes, warehouses, electric plant for power and lighting, the coal-handling plant, etc., has been let to Messrs. Schneider (Creusot) of Paris, France.

At Para, "There are at present at Para," continued Mr. Corbitt, "quite a number of small piers with warehouses and sheds upon them where most of the traffic is handled by lighters from steamships anchored in the estuary below the city. There is a large transfer business between ocean ships and steamboats that ply on the various rivers. They ascend the Amazon to Iquitos in Peru and to the ports at the head of navigation on many of the tributaries.

"Para is naturally the dividing point between deep sea navigation and the Amazon River traffic. The deepening of the channels and the building of a port for 10,000-ton vessels, or greater if the future requires it, will be likely to make it still more important. A large commerce, much beyond existing traffic, is assured, not only by the normal increase, which has been nearly a million registered tons in three years, due to the exportable products of the country, of which India rubber is by far the most important and valuable, but by the increase that always comes from furnishing to commerce improved facilities. It is interesting to know that this important work is undertaken by North American interests and is to be built by English and French contractors in the South American republic of Brazil—truly an international work.

At Pernambuco, "The next important project in order of latitude," said Dr. Corbitt, "is at Pernambuco, where Messrs. Schneider of Paris, have the concession for building and operating a similar port with all modern facilities. The work no doubt will be commenced within the next year. At present very few large ocean steamers can go anywhere near the city.

They stop outside and the business is done by lighters and small boats. Pernambuco has in front of it a coral reef straight as an arrow, on which the Dutch, when they held possession of that part of Brazil, built a masonry wall which is still in a fair state of preservation. Between this reef and the city is a narrow channel where steamers of moderate tonnage can enter. The new port will accommodate at the quay vessels of the largest class and they will be perfectly protected. The Great way of Brazil, an English company, has its principal terminal station at Pernambuco, with other terminals at Natal and Paratyba, north of Pernambuco, and at Macae, south of it. This enterprising company constantly is extending its lines into the interior, which is a fine sugar country.

"Next in order of latitude is Bahia. A Brazilian company has the concession for the port works there. The works are expected to be commenced in the near future. New York interests, the same as those which have the Madeira and Mar-mora railway and the port of Para, have bought the light and power and gas concessions and electric tramways. They are now installing gas engines to run these various installations, and are planning to build a hydro-electric power, for which they have acquired the property and rights.

Rio De Janeiro. "The same New York interests have a concession for electric light and power in Rio de Janeiro, and the works are well advanced. The company has purchased practically all the street car lines excepting one already electrified. It also owns the telephone system, the gas works and the concession for lighting the city. When it is known that Rio de Janeiro is a city of nearly 900,000 people the importance of the work being done by these interests will be appreciated. The existing electric tramway line was built many years ago by the former manager of the Bleeker street horse car line of New York City, which is still a horse car line.

"The federal government is engaged upon very important port works at Rio de Janeiro that will cost at least \$25,000,000. Municipal improvements now under way will cost as much as the port."

"Have you any antiques today?" asked the tourist in Italy. "I regret to say," replied the dealer, "that your Mr. Morgan came along yesterday and cleaned out my stock."

"Well, hurry up and make some more," said the tourist, impatiently, "and remember that money is no object. I'll be around here for a week yet."—Philadelphia Ledger.

"Your son will complete his education next month, will he not?" "Yes, he will not. Why, he is just graduating from college."—Cleveland Leader.

London Cabmen's Humor. Some of the banes of fraternity, of course, have no sense of humor, but the majority are decidedly facetious. Here are some examples of witty and sarcastic "cabbyisms."

To appreciate them it must be understood that the fare has offered a single shilling in payment for a ride just within the two-mile limit.

"Are you quite sure you can spare this?" remarks the cabby with a bump of humor. "D'ye think you'll be able to rub along on the other nineteen till next Friday? It's o' the pace, y'know."

"If you'll take my tip, guv-nor," runs another form of genteel reproach, "you'll go and see a hoolist. You ailed this bus by mistake. You wants a red, or green, or yellow bus—black ain't in your line at all."

"Thank yer, guv-nor," says another cabby, with apparent emotion; "thank yer, kindly. Yer offer is well meant, but I couldn't go for to do it." Saying which, he makes a pretense of handing the shilling back to the astonished fare. "But I can't sell him, guv-nor, an' that's a fact. Yer 'andsome hoffer'd make me rich for life; but I tell yer, I can't sell 'im."

One cabby who was an excellent actor, on receiving his shilling, burst into tears, and between his loud sobs jerked out: "I'm sorry you force it on me, guv-nor, I am really. The income tax people'll be down on me now."
